# SUMMARY

## Key Points

- UN proposes new initiative
- Political tensions to escalate
- HCS accepts HoR Constitutional Amendment

## Political

*The absence of a solution to the political deadlock and continuing legitimacy crisis over the GNU's mandate continue to define the context of heightened political uncertainty. In the current context, there are two political initiatives at odds with one another. The pro Al-Meshri bloc within the High Council of State (HCS) recently voted in favour of the House of Representatives' (HoR) 13<sup>TH</sup> constitutional amendment, while key international actors have announced support for the political initiative proposed by UN SRSG Abdoulaye Bathily.*

*Intense political manoeuvring will likely define the next few weeks against the backdrop of Bathily's proposed formation of a High-level Steering Panel for Libya. Key contentious issues such as the eligibility of dual nationals and military officials to run for president will continue to divide Libyan stakeholders and undermine progress towards a solution to the stalemate.*

*The UN SRSG's proposal is already facing resistance from key domestic actors such as the HoR. Consequently, Whispering Bell assesses actors opposed to the UN-led initiative will double down on their campaigns to form a new unified government as a hedge against the UN push to establish a new dialogue forum. In turn, renewed efforts to form a new government will mount the pressure on the GNU and PM Abdul Hamid Dbeibah. Amid US pressure to hold elections, Dbeibah may be compelled to reshuffle his cabinet and/or organise limited legislative elections. Of note, Dbeibah announced the formation of a government committee to implement and coordinate elections on 09 March, while Bathily provided further details on his proposal to form a High-Level Steering Panel for Libya in a press briefing on 11 March.*

## Security

*Tripoli is operational and continues to present a relatively permissive operational environment. Sporadic incidents will continue to define security atmospherics in the western region. From a security standpoint, the status quo and stable atmospherics are set to remain as is in Tripoli. Low-impact and localised flashpoints outside government offices are possible but are unlikely to escalate or impact business operations. Targeted attacks against HoR MPs, HCS members, and other political figures are likely as political tensions peak over the next few weeks.*

## Oil & Gas

*Disruptions to production are likely despite evidence the LNA is yet to support a coordinated oil blockade. In his latest visit to Libya, US Central Intelligence Agency (CIA) Director William Burns allegedly reiterated to Haftar the importance of safeguarding oil and gas facilities and production.*

# TRIPOLI

- **Report n°6221:** Tripoli: 6+6 committee first meeting

The 6+6 joint committee to formulate electoral laws and organise a referendum held its first preparatory meeting in Tripoli hosted by the High Council of State (HCS) and attended by House of Representatives (HoR) delegates on 05 April. According to informed sources, this was an introductory meeting during which the two sides discussed mechanisms for future meetings and formed a list of parties that can be contacted throughout the process of formulating electoral laws.

**Analysis/Comment:** Multiple challenges lie ahead of the committee. Whispering Bell assesses conflicts of interests, namely difference over the eligibility criteria of presidential candidates, will delay the process of finalizing electoral laws.

- **Report n°6222:** Iraq to reopen embassy

Iraq's foreign ministry confirmed on 04 April that it will resume its diplomatic activity in Libya, restore full diplomatic ties, and reopen the embassy in Tripoli nine years after closure.

**Analysis/Comment:** Multiple challenges lie ahead of the committee. Whispering Bell assesses conflicts of interests, namely difference over the eligibility criteria of presidential candidates, will delay the process of finalizing electoral laws.

# NATIONWIDE / GENERAL

- **5+5 JMC: Western security officials head to Benghazi**

Emerging reports at the time of publication confirm a western delegation of the 5+5 Joint Military Commission (JMC) and some security officials from the western region will arrive in Benghazi in the morning/afternoon on 06 April. The reports indicate not all the militia commanders from the western side who were present in the previous Tripoli meeting will head to Benghazi.

- **Unconfirmed: Misrata commander shot ivo Al-Wattiyah airbase**

Unconfirmed reports allege that the commander of Misrata's 77 Battalion (MoD), Mohamed Al-Hbouty, was targeted in a shooting incident as he left a meeting with Turkish military officers at Al-Wattiyah Airbase in the early hours of 05 April. Unsubstantiated reports claim he was shot by Turkish servicemen near the airbase and later succumbed to his wounds.

**Comment:** The incident has not been independently confirmed by Whispering Bell sources. Of note, the 77 Battalion is a relatively small Misrata faction active in the Western Region, including Wershiffanah. The battalion was involved in the Tajoura skirmishes between the MoD's 51st Brigade "Al-Bugra militia" and Al-Shahida Sabrya Battalion in Jan 2023.

# VERACITY SCALE

## **A – Reliable:**

**This information is almost certainly true.** A is Reliable, "No doubt of authenticity, trustworthiness, or competency; has a history of complete reliability". It is reported by one or more credible publications, and if an author is listed we have no reason to suspect them to be biased. The reporting is sourced based on widely available or verifiable information. The information is consistent with everything our team knows about this subject.

## **B – Fairly Reliable:**

**This information is probably true. This information is possibly true.** B is "Fairly Reliable" for "minor doubt". It is reported one or more mostly credible publications, and if an author is listed we have no reason to suspect them to be biased on this subject. The reporting is primarily based on verifiable information. The information is mostly consistent with everything our team knows about this subject, but may contain new or surprising information given credibility on the strength of the publication or author.

## **C – Unreliable:**

**This information is probably false.** This information is almost certainly false. "not usually reliable" for "significant doubt," and "unreliable" for "Lacking in authenticity, trustworthiness, and competency; history of invalid information". It appears in social media or an unreliable publication, and may be written by an author that is not known to us or is known to be less reliable. The reporting is thin, largely dependent on anonymous sources or unverifiable accounts from social media or limited access areas. The information is consistent enough with our knowledge of the subject to be possible, but contains sufficient discrepancies to make it seem unlikely. The information is mostly or entirely inconsistent with our knowledge of the subject.
